### **72-Hour Emergency Kit**

The 72-Hour Emergency Kit should be individually tailored to meet the basic survival needs of your family for three days to a week. Most families prefer to store their emergency supplies in one location that is relatively safe, yet easily accessible if evacuation is required. Items may be stored in a 32-gallon trash can, suitcase, duffle bag, backpack, footlocker or individual pack.

The items under Emergency Needs are recommended for your kit.

Store your water in thoroughly washed plastic, glass, fiberglass or enamel-lined metal containers. Never use a container that has held toxic substances.

---

### ***Emergency Outdoor Water Sources***

*If you need to find water outside your home, you can use these sources. Be sure to purify the water by:*

- Boiling
- Disinfection (household liquid bleach: 16 drops/gal. of water, stir & let stand 30 min.)
- Distillation (boil 2 pot water & collect the vapor by tying a cup to the upside down pot lid - the cup shouldn't dangle in the water--it will condense back to water in the cup)

*Sources:*

- Rainwater
  - Streams, rivers & other moving bodies of water
  - Ponds & lakes
  - Natural Springs
- 

### ***Establish an Out-Of-State 24-Hour Telephone Contact***

- Calls out will not overload phone lines as will calls coming into a disaster area.
  - All relatives should be informed now on procedures to call the phone contact, not after a disaster has occurred. Individual location and status should be requested.
  - Take color pictures of every room plus pictures of valuables. Send one copy of legal papers and one copy of pictures to an out-of-state contact.
- 

### ***Plan How Your Family Will Stay in Contact if Separated by Disaster***

Pick two meeting places:

1. a location a safe distance from your home in case of fire
  2. a place outside your neighborhood in case you can't return home
- 

### ***Other Considerations***

- Stock supplies to last several days to a week for each family member.
  - Be prepared to relocate to a shelter during a prolonged power outage.
  - Have extra cash on hand in case electronic transactions (ATM card, credit cards, etc.) cannot be processed.
  - Work with your family in talking about the steps each needs to take to be ready if disaster happens.
- 

### ***Meet with Neighbors***

Plan how the neighborhood could work together after a disaster. Know you neighbors' skills (medical, technical). Consider how you could help neighbors who have special needs, such as elderly or disabled persons. Make plans for child care in case parents can't get home.

### **[Contact Your Local Emergency Management Office](#)**

- Find out which disasters are most likely to happen in your community.
  - Ask how you would be warned.
- 

***Preparedness is everyone's job.*** Not just government agencies but all sectors of society -- service providers, businesses, civic and volunteer groups, industry associations and neighborhood associations, as well as every individual citizen should plan ahead for disaster.

During the first few hours or days following a disaster, essential services may not be available.

People must be ready to act on their own
